INTRODUCTION

DEVELOPING INNER CIRCLE

TO BE USED ONLINE & OFFLINE

Most people create an inner circle of people. However, they are usually not strategic in doing so. We naturally tend to surround ourselves with either people we like or people with whom we are comfortable.

You must give thought to the accomplishment of your mission and the success of the people who follow you. Only if you reach your potential as a leader do your people have a chance to reach their potential.

In the circle for each category write the names of actual people who impact your work. You are in the center of a complex network of people. Your job includes building a relationship with everyone on that wheel. You do have to do it if you want to ensure long-term success.

The next step is to develop a plan for how you're going to build and maintain a relationship with each of them.
